

Volunteer Opportunities

Direct Service Opportunities

Be a life-line for someone in need. Help answer the 24-hour crisis line after hours or on weekends. Participate in support group facilitation, help out at one of our confidential shelters or accompany a survivor to court. Direct service volunteers must attend the 50+ hour training.

We request a one-year commitment from volunteers who complete the full training, and ask that they are able to take a minimum of three shifts per month on our crisis-line. There are many more volunteer possibilities above and beyond the crisis line.

Direct Service Training Cost

\$25 fee for materials and manual | \$250 fee for those who attend the training but do not volunteer
Background check required for all positions.

Support Service Opportunities

Help our admin teams stay organized in the office by volunteering with basic office support or join the Resource Development Office and volunteer at one of our annual fundraising events. Basic office work and special events do not require the full training.
